

About the Project

The Skills for All Project emerges as a response to this pressing issue, aiming to address the systemic challenges that hinder the participation of individuals with disability in VET initiatives. With a focus on promoting inclusivity and equal opportunities, the project endeavors to create a more accessible and supportive environment for individuals with disabilities to acquire relevant skills and qualifications.

We need to remove various barriers in social life for people with disabilities.

Activities

Creation of Accessibility

To address the barriers faced by individuals with disabilities in accessing vocational education and training (VET) opportunities.

Promotion of rights

To promote disability inclusion in VET education, the project aims to empower individuals with disabilities, reduce social and economic marginalization, and contribute to building more inclusive societies

Consultation

To encompass a series of activities designed to enhance the capacity of VET institutions to cater to the needs of individuals with disability effectively.
