Background and Experience
<i>Please briefly present the partner organisation (e.g. its type, size, scope of work, areas of specific expertise, specific social context and, if relevant, the quality system used). Max. 4000 characters</i>
Training Academy is a limited company accredited by Lazio Region for the provision of professional training courses. It was founded in 2017 in Albano Laziale, in the heart of the Castelli Romani. It has been operating for years in the field of vocational training. It develops consulting projects and interventions, continuous training, analysis actions, socio-economic research, and technical assistance in favor of public administrations and private companies. In October 2021 it is accredited as an Employment Agency.

T.A.'s objective is to guarantee a complete and highly professional training to its students, but also to support companies in the design of their training plans. The strength of the Academy is to create a link between supply and demand, to bring people and companies closer to the world of work and internationalization through specialized consulting services.

The Academy intends to provide a concrete experience to those approaching the world of work today. Over the years it has guaranteed to the students who have followed the courses a percentage of employment higher than 90%.

Areas of intervention

- Transmit specific skills and create job opportunities through different courses with innovative and structured didactic programs in different fields (also financed by Inter-Professional Funds)
- Stimulate productivity, economic growth, and optimization of the use of human resources in application of the principles of effectiveness and efficiency through innovative and competitive training.
- Planning and management of interventions and consultancy services, guidance, professional support, and insertion / reintegration into the labour market
- Technical assistance to support national and local institutions in the planning, management, monitoring and evaluation of ERDF and ESF
- Make new professional profiles consistent and adopt innovative teaching methodologies (including with ICT tools), to promote the socio-economic inclusion of the individuals
- Participation to European calls for training and social innovation (especially Erasmus+, European Solidarity Corps, SMP, CERV, and Horizon Europe)
- Carry out social activities aimed at giving voice and space to those who are marginalized by culture, geographical position or working condition

T.A.'s true mission:

Operate more and more efficiently as an intermediary alongside students, professionals, and companies, trying to perceive the attitudes and abilities of students by offering a specific orientation path to identify the most suitable professional course.

Our goal

To give training a strategic role.

Our team

MULTIDISCIPLINARITY: Training Academy it is made up of highly qualified resources with multi-disciplinary skills.

SKILLS: We have implemented an internal training policy of periodic and structured sessions for updating and developing skills.

What are the skills and/or expertise of key persons involved in this project? Max. 4000 characters*

Training Academy offers courses with innovative and structured didactic programs, in order to transmit specific skills and create job opportunities in different fields.

The Academy intends to provide a concrete experience to those approaching the world of work today. Over the years it has guaranteed to the students who have followed the courses a percentage of employment higher than 90%.

The Training Academy is an organization dedicated to promoting green sustainability and providing education on environmentally friendly practices. They specialize in offering vocational education and training (VET) courses on green sustainability, which focus on teaching individuals how to implement sustainable practices in various industries. These courses cover a range of topics, such as energy efficiency, waste reduction, and resource management, and are designed to equip participants with the knowledge and skills needed to implement sustainable practices in their workplace. By providing education and training on green sustainability, the Training Academy is playing a crucial role in promoting a more sustainable future and helping individuals and organizations make a positive impact on the environment.

in addition to being accredited for the provision of professional training courses, over the years T.A. has enriched its training offer with a series of business services, such as:

- Professional Apprenticeship
- Interprofessional funds
- Certification for companies
- Social Projects

Our staff members are experienced and qualified professionals, amongst them:

Marwan Zaher

A master degree holder in Local Development from the Università Degli Studi di Padova, Italy. He is a specialized in EU funded projects with more than 6 years of experience. His expertise focused on thorough understanding of specific forms —social dynamics, organizational, economic, territorial, and institutional—on characterizing the local development processes in different contexts and at different levels of development. It covers in-depth and integrated knowledge the fields of political, economic, regional, and social organization; statistics for the measurement of local and sustainable

development; intercultural learnings; design and development of group dynamics; and in project planning. Alongside with a particular focus placed on the aspects of social and environmental responsibility, he is able to read the labyrinthine contexts using analytical and practical methods. He has the ability to recognize the emergence of favourable conditions for local development; to identify the adequacy/inadequacy of the development processes by making distinctions between them, using as a reference the different categories of local development; and to promote the emergence of favourable conditions for local development. He obtained his 5-year-bachelor's degree from the Faculty of Urban & Regional Planning at Cairo University, Egypt, which gave him the knowledge of different aspects and parameters of urban development.

Has the partner organisation participated in a European Union granted project in the 3 years preceding this application?
